

Quality Policy Statement

COMMITMENT TO QUALITY

Westland Milk Products is committed to providing products that comply with all legal and health standards and requirements, satisfying the needs of our customers, while serving to protect the company interests.

This will be achieved by every employee and supplier of goods and services taking responsibility for producing quality products and services.

TO ACHIEVE AND UPHOLD THIS, THE COMPANY SHALL:

- Establish and maintain a company wide Quality System using ISO 9001:2000 as the standard. This Quality System will be the basis of our business philosophy, encompassing all departments for all activities. All letter-head correspondence will contain the ISO registration logo to indicate the Company's registration status.
- Ensure stated food safety and legislative requirements are met, by working with NZFSA and other regulatory bodies. Company policies and procedures will be developed with this in mind.
- Ensure that all customers are aware of our quality management system registration.
- Ensure that all company employees comply with the policies and procedures of quality management system of the company.
- Ensure all employees receive the necessary training to allow them to carry out the duties of their position correctly.
- The company is committed to the philosophy that quality must start with Senior Management who will lead and be actively involved in developing, implementing and improving the Quality System.
- Continually monitor and improve the Quality System by regular audits and management reviews.
